

Interfaith Waste Charity Movement

(Gerakan Sedekah Sampah Indonesia/GRADASI)

The National Coordination Team for Marine Debris Handling (TKN PSL) Secretariat

GRADASI

Houses of Worship as Centers for Civilization and Behavior Change in Managing Waste

Number of Houses of Worship in Indonesia

700.000 Mosques	14,655 Temples
58,037 Protestant Churches	12,764 Catholic Churches
2,265 Viharas	1.763 Pagoda

Indonesia is the most religious county in the world

96% of Indonesian respondents think that one must have faith in God to be moral

98% of respondents consider religion important in their life

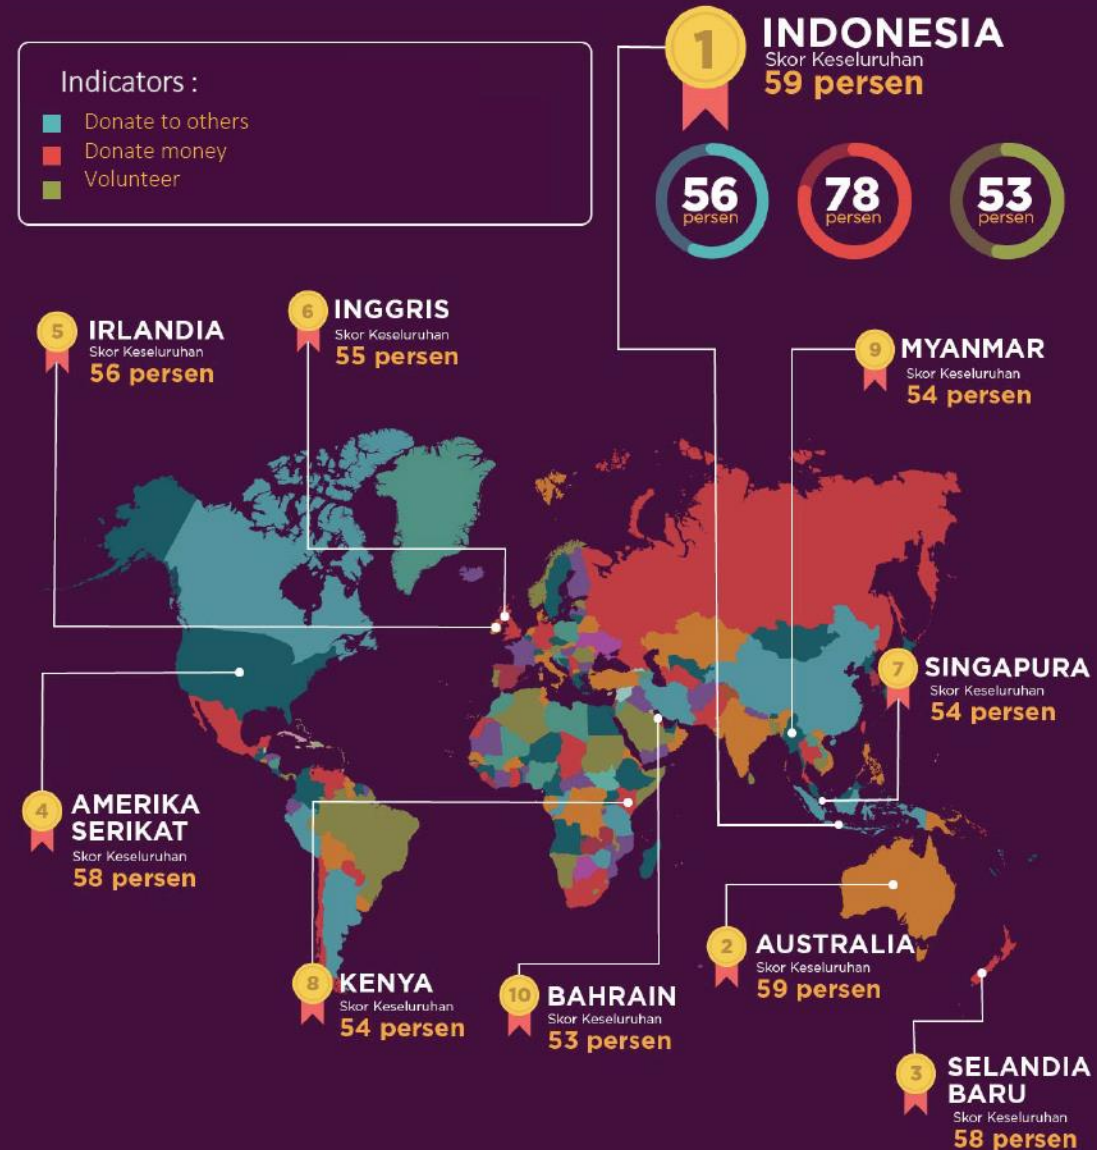

If **790,000 houses of worship** implement the GRADASI movement, it is estimated that **19 million tons** of waste per year can be managed*

*it is estimated that managed waste is 2 tons of managed waste/month/houses of worship

INDONESIA

The Most Generous Country in The World

According to the Charities Aid Foundation (CAF) in its report on the CAF World Giving Index as of October 2018, Indonesia occupies the top position of the 144 countries surveyed by this agency.

RAISING AWARENESS

is carried out to enhance community **behavior to reduce, manage and sort their waste by implementing a religious approach**. GRADASI aims to bring the interfaith communities closer to waste collection initiatives as the country moves toward a circular economy approach to waste management.

GRADASI : What's Next?

GRADASI : Collaboration with Istiqlal Mosque

Waste management education for visitors to the Istiqlal Mosque

Waste Collection at Istiqlal Mosque.

Idul Adha Tanpa Sampah Plastik Campaign.

Istiqlal Mosque as a learning center for waste management.

Coming soon....

GRADASI :

What's Next?

GRADASI :

Collaboration with Siklus Refill

- Siklus Refill is one of the winner of Ending Plastic Pollution Innovation Challenge (EPPIC).
- The refill cycle will operate around the pilot mosque environment and works together to provide education to the public to reduce sachet packaging waste.

GRADASI :
What's Next?

GRADASI :
Bulkstore at Baitul Makmur Bekasi as a Pilot Mosque

- Baitul Makmur Mosque will become a pilot zero-waste house of worship in Bekasi.
- The pilot mosque will become a learning center for waste management, both inorganic and organic waste.

Challenges

- Experts/trainers are needed to conduct training for house of worship administrators
- Fulfillment of needs in the form of facilities for Unit Mosques, among others in the form of:
 - Trash alms box
 - Garbage scale

THANK YOU
